David Beltz

David is a Marine Veteran, serving as an enlisted Rifleman with Third Battalion, Eighth Marines from 2007-2011 and a Marine Infantry Officer with First Battalion, Second Marines and 2d Marine Regiment from 2015-2019. David has two combat deployments to Afghanistan with 3/8 and one deployment with SPMAGTF-CR-AF with 1/2.

David is currently employed by Red Hat, the largest open source software developer in the world. His role is Territory Services Manager on their Navy and Marine Corps Team focusing on supporting the Navy's IT modernization initiatives. He also serves in Red Hat's Military Veterans Community, helping to raise awareness and educate others on the issues faced by service members and veterans. Additionally, he and his wife invest in and self manage rental properties with the purpose of improving Chambersburg, PA and providing a high standard of housing for their tenants. He also serves on Mission Hill's Men's Ministry leadership team. Other areas of interest for David are mining crypto currencies, staying physically fit, and reading.

David received his Bachelor of Science in Information Sciences and Technology and is currently working toward an Associate in Science in Business Administration, both from Penn State University. He also has his Project Management Professional (PMP) Certification from the Project Management Institute. He is passionate about always learning and always improving, captured by one of his favorite quotes by Emile Coue, "Every day, in every way, I'm getting better and better."
